On April 24, 2019, the National Bank of Cambodia (NBC) hosted the public dissemination of its "Financial Stability Review 2018". The ceremony was presided over by H.E. Neav Chanthana, Deputy Governor of the National Bank of Cambodia, and attended by representatives from ministries, financial institutions, research institutes, real estate agencies and development partners. The event has brought together around 400 participants.

Since 2011, the NBC has established Financial Stability Committee to oversee and analyze risks related to financial stability. Considering the importance of financial stability in contributing to macroeconomic stability and supporting growth, the NBC has prepared Financial Stability Review intended to promote greater understanding among stakeholders and general public on issues and developments pertaining to financial stability and relevant policies.

The summary of the main findings of Financial Stability Review is attached to this present document. ៧
